## PROFESSIONAL SUMMARY

Software Engineer and CS graduate with hands-on experience building production-grade full-stack applications using Java, Spring Boot, and React.js. Currently interning at Archelos Intelsense Technologies delivering a 200-user system with 25% faster APIs. Skilled in RESTful APIs, microservices, JWT authentication, PostgreSQL, MySQL, and AI/NLP integration (spaCy, scikit-learn, FastAPI). Proficient with GitHub Copilot, Claude, and Cursor AI. Strong Agile/SDLC background with Jira and GitHub Issues experience.

## TECHNICAL SKILLS

**Languages:** Java, Python, JavaScript (ES6+), SQL, HTML5, CSS3 **Frameworks:** Spring Boot, React.js, FastAPI, Tailwind CSS  
**Backend and APIs:** RESTful APIs, Microservices, Spring Security, JWT, JDBC **Databases:** MySQL, PostgreSQL, MongoDB (basics)

**Dev Tools:** Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code **Cloud:** AWS (basics), Cloud Technologies (basics)

**Project Tools:** Jira (basics), GitHub Issues (basics), Agile, Scrum, SDLC, Code Review

**AI and NLP:** spaCy, scikit-learn, AI Coding Agents, Google Antigravity (basics), Claude, ChatGPT, GitHub Copilot, Gemini, Cursor AI, Perplexity AI

## EXPERIENCE

### Software Engineering Intern

March 2025 – Present

Archelos Intelsense Technologies, Bengaluru, Karnataka

- Developed an Employee Management System serving 200+ users via RESTful APIs, improving team operational efficiency by 30%.
- Implemented JWT-based authentication and optimised MySQL database queries, cutting API response time by 25%.
- Collaborated with product and business stakeholders to gather requirements, define user journeys, and deliver live feature demonstrations.
- Contributed to 3 full Agile sprint cycles including sprint planning, daily standups, peer code reviews, and retrospectives; tracked tasks and bugs in Jira and GitHub Issues.
- Documented technical specifications and resolved 15+ bugs per sprint following SDLC and clean code best practices.

## PROJECTS

### Organisation and Workforce Management System

Java, Spring Boot, React.js, PostgreSQL, Python, Spring Security, JWT, spaCy, scikit-learn

- Designed and developed a multi-role workforce platform managing 500+ employee profiles across HR, Engineering, Finance, and Operations for Admin, HR Manager, Department Manager, Engineer, and Employee personas.
- Built full HR Module covering recruitment, attendance, payroll, and automated onboarding/offboarding workflows, reducing HR processing time by 40%; Manager and Engineering modules with sprint planning and KPI dashboards improved delivery visibility by 50%.
- Integrated AI-powered Skill Gap Analyser using NLP (spaCy, scikit-learn) generating personalised employee learning paths; all PostgreSQL APIs achieve sub-200ms response times under concurrent load.

### Quotation and Build Generation Software

Java, Spring Boot, React.js, PostgreSQL, Spring Security, JWT, iText PDF, JavaMail, Razorpay API, WhatsApp Business API, AI Pricing Engine

- Engineered an end-to-end business automation platform enabling sales teams to generate quotations, convert to invoices, collect payments, and deliver documents within a single unified system, supporting 500+ SKUs with custom pricing tiers, bulk discounts, and tax configurations.
- Built an AI-powered Smart Pricing Engine that analyses configurations, compares real-time market prices, and auto-suggests optimal selling prices with configurable profit margins, reducing manual pricing time by 60%.
- Implemented one-click PDF generation using iText for branded quotations and invoices with itemised breakdowns, digital signatures, and full version history stored in PostgreSQL.
- Integrated multi-channel delivery via WhatsApp Business API and JavaMail SMTP; embedded Razorpay payment gateway enables clients to pay directly from the quotation link, reducing payment follow-up effort by 70%.
- Secured the platform with JWT and Spring Security across 3 user roles (Admin, Sales Manager, Sales Executive); all APIs optimised to sub-150ms response times under concurrent load.

## EDUCATION

### Bachelor of Engineering in Computer Science

2021 – 2025

Akshaya Institute of Technology, Tumakuru, Karnataka
